

MODEL 2890

Hydrostatic Stump Grinder

The Model 2890 is a **high production stump grinder** available with either a swing out operator's console or wireless radio remote control. Perfect solution for those looking to grind large diameter stumps while having the ability to grind stumps in hard to reach places. Standard **dual drive wheels** enhance stability and can be removed by a single bolt so the 2890 can fit through a back yard 36" gate.

MANEUVERABLE AND POWERFUL

- CAT 120 or PSI 165 engine options
- Low-maintenance **hydrostatic drive**
- Optional **hydraulic grading blade**

Durable Cutter Wheel Drive System

The cutter wheel is engaged utilizing a hydrostatic system and driven with a hydraulic motor mounted on the side. No jackshafts, bearings or belts are needing maintained on this unit increasing productivity and reducing downtime. The Bandit wheel with Green teeth or New Revolution wheel with hex teeth provide an aggressive cutting action with easy to change pockets and teeth.

Radio Remote Control (Optional)

All track and grinding functions are controlled by a wireless radio remote with tether back-up making it easy to operate the unit in almost any position.
